psychology

What are
the results
of the
theoretical
survey of
previous
studies and
the survey
of metrics

we found 23 files

we found EPDS scale

What direction has
been taken and why
is that direction?

distribution of roles within the group and cooperation achievement

we collaborated on doing something great, and the tasks were divided according to each girl with a knowledge that worked any and shared in any

Pink magic

What difficulties and disadvantages
have we faced?

Thank you

”cooperation and working with
love can move mountains ”
